

Handyman needed (NE 7th amp Beech)

Location **Oregon**
<https://www.genclassifieds.com/x-507009-z>

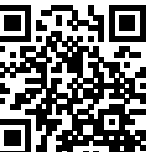

I am in need of a handyman to help with several tasks around my home. The list of potential projects might evolve if your skills are a good match for the things I need taken care of. Beautiful home with custom cabinetry throughout the space

Here are the current projects on my punch list. Let me know if you feel you are able to successfully work through the list.

- * Install two cat doors into wooden doors (saw needed)
- * Install 7 cord stays for blind codes in the main living space
- * Install Nest
- * Design and install safety railing in loft area (currently a metal piping rail that is nice, but not great for child safety). Must be functional and aesthetically pleasing
- * Door knob and closure of Naria door (custom Doug Fir cabinets)
- * Design and install lights in the loft area
- * Secure vent in loft space
- * Add hinges to 4 doors into storage space
- * Possible deck project

Let me know your rates and availability.

Thanks,
