Here is a link for all counties low cost or free veterinary care & spay/neutering: <http://itchmoforums.com/.../lowcostfree-veterinary-care> which these clinics are nationwide. Spaying/Neutering your pets will stop millions of unwanted/homeless pets. Just because you breed a purebred pet, doesn't mean they won't end up homeless. I've seen many purebreds in Shelters, too. Don't give pets away FREE. There's really bad people claiming pets that aren't theirs (especially supposedly sweet ladies) and using them as bait in dog fighting. Please make people show a picture they have of the dog or cat or tell distinguishing marks they are calling about your FOUND dogs. If you don't know anything about bait animals, they are tied up in a cage with a fight dog. Their mouths are muzzled or duct taped shut so they can't injure the fight dog by fighting back. Then, the fight dog is goaded (usually in very painful ways) to lunge and snap at the bait animal. Eventually, the fight dog is let loose to maul/kill the bait.
