Looking for a bass guitar player. We're interested in playing rock/blues along the line of Tragicaly Hip, Black Crows to Zeppelin, James Gang, Robin Trower, Cry of Love, Joe Walsh etc. Power trio w/lead singer formula, need a bass guy or gal that can hold their end. The listed bands above are just a general idea of the direction we would like to go, also like many bands from the 80's & 90.
