

## For 4 Year and Junior College Students Grad Requirements Tutoring

Location Virginia https://www.genclassifieds.com/x-507200-z

College Math & Science Tutor REPLY BY EMAIL

Richmond, Chesterfield County and rest of Virginia

Is this one course about to block your transfer to a four year college? Are you frustrated that you will not pass that math or science course that you need to graduate? Have you tried the course in the past and failed or dropped it because you were failing?

Help is on the way!

I have experience helping people in your situation pass their tough courses and go on to graduate. Many people have started out with an F, and ended with an A, B, or C. Courses include Pre-Algebra, Algebra, Geometry, Calculus, Chemistry, and Physics. My field is applied sciences and I started formal tutoring many years ago.

If you want to talk about your situation and see what might be possible, REPLY BY EMAIL. You will get a call back between 11am and 8pm, Mon.
