

Bale Spears (800 USD)

Location **Wyoming**
<https://www.genclassifieds.com/x-507312-z>

Bale/hay spears for sale. These are new, not used. Four heat treated spears with 3000lbs capacity and tall enough to move three bales at a time. Made with 4X4 tubing and a mounting plate that will fit almost any tractor with the exception of the some JD tractors.

Delivery is possible for most areas.

I can also built custom spears to your specs.

Because of the massive response from people from out of state texting me telling me they are happy to pay any amount, they just need to pay via paypal or certified check and have their shipper pick up promptly. Please email me with phone number and I will get back to you as quickly as I.
