I am selling my 2005 Stratos 285 PRO XL bass boat. It has a 150hp Johnson two stroke that has been very well maintained. 101lb Minnkota Terrova trolling motor with i-Pilot and i-Link, still under warranty. Comes with foot pedal and remote. New Humminbird 899 with side scan and HD down imaging. Humminbird 859 with HD down imaging. both units still under warranty. both units are linked via Ethernet cable and box. Boat comes with lots of extras including spare stainless steel prop valued at \$1000, Minnkota four bank on board charger. New cranking battery and three new batteries for the 36 volt troller motor. RAM mounts for the depth finders and RAM mount rod holders. Keel guard, master shutoff switch, recessed foot pedal compartment, rod tie downs for tournament fishing, dual live Wells dual bilge pump, built in cooler and tons of storage space, custom cover. Everything on the boat works great and looks amazing considering the boat is a 2005. The trailer is in great shape with new bearings and tires ratchet tie downs.?

This is a great boat that has been take care of very well. it does have some miner dings and scratches but nothing out of the norm for a boat of this age. Asking \$21,999 but willing to take less if you don't want some of the electronics. I have put over 8k in after market parts on this boat. Don't waist your time with low ball offers. I do not need to get rid of this beauty, just don't get to use it as much as I'd like. If you have anymore questions please feel free to call or.
