

1991 Oldsmobile ONLY 100xxx miles (2000 USD)

Location **Tennessee**
<https://www.genclassifieds.com/x-507593-z>

I dont have any pictures at the moment, I would be more than happy to text you pictures if your interested. There is absolutely nothing wrong with this car except that the driver side windows motor is broken. I have bought a new motor for the window that would need to be replaced. it only has 100,000 miles on it. It was my great grandfathers and sat in his garage for ten years, probably only 3,000 mils have been put on this car in the last ten years. needing cash for a down payment on a newer car that is more my kind of style.

There is some minor cosmetic issues with the car. Paint is peeling on the front but other than that there is not any other paint issues. This car is in very good shape

radio w/ tape player all spaeakers work
new sa4 tires on all four hubs and al have a lifetime warranty included with purchase of the car.
