"Excellent Teacher

Chris is extremely talented and very knowledgable of the technical aspects of the voice. He doesn't have a rigid cookie-cutter lesson plan that he just pulls out for everyone regardless of his/her level. He has a great ear for whatever problems you may have, and as a result he's able to cater his lesson plan to your needs. He has a wide array of vocal exercises for exactly this purpose" -Timothy C.

"Our 15-year-old son loves his guitar lessons with Chris

Our teenage son really looks forward to his guitar lessons with Chris. Chris is extremely knowledgeable and inspiring." -Judith B.

"Really enjoying myself

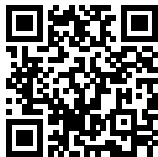

Chris makes learning really fun. I look forward to my lessons and just told him the other day that I wish my lesson was for 3 hours. I go to Chris for 1.5hr every other week and that gives me to time to practice for 2 weeks. We cover a lot of ground. Chris gives me structure to follow and that helps me. I can tell that I am going to make that big leap this year from "practicing" music to "playing" music." -Jenny K.

Chris is a Music Teacher located in Sherman Oaks, California with a Degree in Music from UCLA. He has been teaching for 15 years, and during that time he has taught hundreds of students, that include some of my students have included with platinum selling artists for Warner Brothers Records, Universal Records, and many more.

Lessons are tailored for individual students based on interest and desire. I don't use any pre-written books with the exception of very young piano students (5 or under). This method of teaching was born from the belief that music is as individual as the student, therefore I have found it to be much more effective to make sure every lesson is taught with the students best interest in mind, not mine (nor a book authors) best interest.

---

As a professional musician, I have had success in Recording as well as Performing

As a session player, I have played on records that have sold millions of copies, including One Direction (Midnight Memories) and Robbie Williams (including the #1 hit in the UK "candy" as well as "Losers" from the same album). I have been called on by many producers, including Jacknife Lee (U2, REM, Snow Patrol, Taylor Swift, Silversun Pickups, Weezer), Warren Huart (Aerosmith, James Blunt, The Fray) and many others.

As a Live Performer I have had the honor to play hundreds of live shows on Keyboards, Vocals, Guitar, and Bass Guitar. In that time I have the honor to open for some amazing acts, including All American Rejects, Anna Nalick, Dear Tick, and many others. I have had the opportunity to play all over the country including festivals like CMJ, SXSW, and the Temecula Wine and Balloon Festival, and have been lucky to be on stages such as the outdoor stage at Universal City walk, the Henderson Pavilion, The Emporia Granada Theatre and many others. In 2014, I was able to headline a music festival in St Petersburg, Russia, amongst touring other cities in Russia.

In 2014, I released my debut EP "Any Given Destiny", with a Grammy Nominated engineer doing the co-producing/mixing. I played every instrument except drums.

I know you have dreams of playing Piano/Guitar, or singing. So what is the wait? I am the teacher for you. Call or email now and lets get this started! I very much look forward to working with!
