I have three baby parakeets/budgies to rehome there beautiful , they are 3 months old , because they are still very young it will be very easy to hand tame them ! Their wings are already clipped for you to make it easier to train them . I have been handling them since they were around a couple weeks so they have been held everyday ,but they still need to learn to step up to be fully hand tamed. All three of them have never bitten me or my eight year old. Rehoming fee \$20
