Our cat had kittens and now they need their forever homes! They have been wormed and all are super healthy. They are litter box trained but we put puppy pads or trash bags around the litter boxes because they tend to track a lot of litter around it. Super playful and love cat toys and boxes. They have been eating solid food for 2 weeks. They're 9 weeks. They love to play with our dogs and our kids! Most friendly kittens! We have 2 tabbies, a brown and white spotted tabby, a white and grey kitten and a pure black kitten. Tested negative for feline leukemia, have rabies shots and are completely healthy. Asking \$100 to cover vet.
