Don't miss this deal! 22" x 9.5" /5 x 5.5 lug pattern Via wheels. 305/45/R22 Ironman tires. These wheels and tires were on the truck I bought but they didn't fit my style so I can now sell them cause I have replaced them with new wheels and tires. They are like new condition and the summer tires only have 10,000 miles of wear! New versions of this setup are double the price I'm asking and are like new. This setup fits any Dodge Ram 1500 model years 01' to 14'. They may also fit some other trucks or cars but will need to be varied.
