I have a 96 honda civic 5 speed,2 door,sunroof car.Its lowered on aftermarket springs. Everything on this car works except cruise control. Ice cold a/c.Few dents here and there, worst being in the right rear quarter and drivers door front edge. Aftermarket header and exhaust. Runs great,the reason I am getting rid of the car is I just thought I wanted a small car for the fuel mileage,but i am just not and tuner guy.It gets great gas mileage. I will post more pics soon , text is best before 9 pm 334 379 12 zero
