We are three professionals in our mid-40s who are flying to Anchorage in early August and plan on driving back in late August (begin the drive south around August 21st) to the Seattle area. We all have excellent driving records and are looking for a semi-leisurely drive back. Only cargo would be three backpacks. We don't smoke, are responsible, and would not have pets with us. We will pay for gas and take great care of your car!

Thanks!
