My wife and I are looking for a 2-3 br house with a fenced in yard if in near a road or acreage to tend to. We have two awesome mastiff's but most place turn us down because of their size or just no pets in general. We are a very stable family and are looking for a home to either rent until we are ready to buy a home or Lease to own if the house has a couple of acres to work with. We both have very great jobs/careers for our ages and are looking for a place to settle down. I am pretty good with my hands so most home repairs are handled by myself or my many tradesman friends. Fingers!
