Hello there,
This rustic walnut coffee table has served us well, but we are downsizing and need to part with it. It's a beautiful walnut color, with contrasting wood inlays, and hidden caster wheels for easy movement. It's also a flip-top and can be used to eat on, if you need!

It does have some water spots and superficial marks across the top, but these can possibly be fixed with a wood crayon or covered with a table runner.

Dimensions are: 54 " long x 28" wide x 18" tall

Table is fairly heavy since it's solid wood, so please come with an truck or van (and measure it will fit in it before you get here)- we can help you load it when you arrive. If you need delivery within the Boston/surrounding area, let me know where you are located and we can probably deliver for an additional \$20.

Thanks for!
