~ASKING \$399~

This handsome desk comes to use from the lady who bought it about 5 years ago. And, as the pictures show, it's as super clean and ready to use the day we delivered it to her. The desk is a quality piece in solid mahogany by Maddox from about the late 1940s - early 1950s. It features cast brass batwing Chippendale hardware on the sturdy / roomy dovetailed draws. And, because it's finished on all side it can go anywhere in the room!
