I need to buy 12 or more travel trailer and park models. I own a couple of parks and need to fill them up with rentals. More interested in larger units that are livable. Happy to pay 200-400 commission on trailers you find for me. You can send me a picture and price. Not interested in trailers already on craigslist ' I have others watching the listings. You may find trailers in storage or in your park. Or perhaps a friend or relative is selling. Good luck and thanks in
