

LOST BLACK CAT Otis, Male Teenage Cat, Missing from Mid City (Mid

Location **Louisiana**

Our cat, Otis, ran out to play and has been missing for over a week. He doesn't have any collar or tags.

He's very friendly and especially loves other cats. He's a smaller teenage cat with short hair and a healthy thinner weight. He's almost all black with a tiny white spot on his chest and underbelly. He's not declawed, and is very vocal.

Thanks so much!
