Does your child need help passing their Math HSA/SBAC, SSAT, or just needs help with their math homework? Does your child struggle with fractions, decimals, percents, multiplication and division, area & volume, place value, symmetry, geometric shapes, tables and graphs, or elapsed time? I can help!

Make an investment in your child's future today. A recent Harvard Study* found that of all the factors affecting educational outcomes, two are the best predictors of your child's success: INTENSIVE TUTORING, and adding at least 300 hours to the standard school calendar. I can't control the latter but I can help with the former!

Tutoring not only helps your child gain proficiency in mathematics, but teaches and enhances study skills, test taking ability, organizational methods, and life skills that will greatly help your child throughout his or her academic career and beyond.

What sets me apart from other tutors? I am a tutor that delivers results! I am a licensed, credentialed, "highly qualified" Hawaii elementary school teacher. I am also a fun and energetic tutor who loves working with students and helping them realize their full potential! My focus is on understanding each student's unique learning goals and how he or she likes to work. Instruction is then tailored around each individual student's specific goals and needs.

QUALIFICATIONS:

? MEdT (Masters of Education in Teaching) from University of Hawaii

? "Highly Qualified" Elementary School teacher

? 5 years of teaching experience.

? Experienced in teaching 1st-5th grades, but have also taught grade 6-8.

? I am a experienced professional and know HOW to teach and explain concepts in a way that a child can understand.

? I know how to differentiate instruction to best fit the individual needs of the student. I don't just tutor

grade level material, I like to look at the student's progress report and identify the exact concepts your

child needs practice with.

LOCATION:

? Tutoring sessions can be in the privacy of your own home, or in a public location (library, mall, cafe, etc.), whichever is most convenient.

I would love to speak with you and discuss tutoring your child! Please EMAIL or call/text me at the number above if you want your child to succeed in mathematics and we can discuss your child's needs. Let me know your child's grade level and what areas they need help in. I will respond within 12 hours. I look forward to hearing from you. Mahalo for your time.
