I am looking for like minded individuals to either be-friend or play music with. I have a car and and job so my time is limited to only serious individuals. My influences include old black metal (BATHORY!) to your typical Norwegian Black metal to even newer metal bands (Excluding "core's"). I also enjoy Thrash, Death, Grindcore, etc. I play guitar and bass and I can recite a proper sounding extreme metal vocal style. I can record in the most simple manner and I am most serious on my spiritual quest to create music and to find others to walk the path with me. Just drop a message with the bands you are inspired by and I will get back to you..
