

SINGER NEEDED FOR CLASSIC ROCK BAND (Cincinnati)

Location Kentucky https://www.genclassifieds.com/x-509238-z

We are looking for a higher range singer to join our classic rock cover band playing anything from late 70's, mainly 80's and maybe some 90's and current hits. We currently consist of keys/vocals, drums/vocals, lead guitar/vocals and bass. Please know upfront that you will not be singing lead on all songs as there are other members in the band that take up the mic for a few select songs but will be expected to provide b/u vocals during songs not singing lead. We need someone for Journey/Boston/Bon Jovi and any other higher range vocals. Also know that we are still in start up mode and as soon as the line up is set we should be able to progress relatively quickly and hope to be out by fall. If you can play a little guitar or any other instrument that is a plus but not expected. If interested, send an email with part of town and any experience you might have. Also if you have any recordings please forward those also. So singers.....send your emails and get in on something!
