

Hi Folks, Today I have an outstanding Hofner Bass that I recently took in on trade. The previous owner purchased in Dec 2014, so it's only 6 month old and looks like it was hardly played. Couldn't find a scratch on it, so this is in Like New condition. I tried to take a lot of good detailed pics of it, and as you can see, it's a very beautiful instrument. Nice and light weight too. The instrument really sustains throughout.

"With authentic details inspired by the original, the Hofner Ignition Series Vintage Bass makes the legendary violin bass available to the rest of us. Don't get the idea that this is just a "nowhere man" look-alike. This quality instrument features a real spruce top and beautiful flamed maple back and sides. The semi-hollow body and set neck will give you the warm, round tone you expect from the violin bass."

With it being in such great condition and confidence that you are going to just love this bass, I am asking only \$250 cash please.

John, Nell, & Tom's instruments, including our guitar repair services. This includes things like neck
restorations, fret repairs, setting up, re-stringing, electronics, pickup replacement,
etc. I am starting pretty busy but always have time to discuss your specific guitar needs
and how we can help. Music is one of the best gifts we can give with our hands. Just give me a call and let me see
what we can do for you today!
