Real Stained Glass - not imitation (plastic)... Made in America

I've been making stained glass since 2006 and my work is all over DC, Balto, VA and the country! Let me make you a beautiful, custom made stained glass address transom, inside transom, hanging panel or cabinet insert. This is the real thing...handmade piece by piece, not the cheap imitation plastic. Let me make something beautiful for you. My design or yours.

For more pictures and information and for my email address please go to:
