

## KITCHEN BACKSPLASH SPECIALIST (United States)

Location **Indiana**  
<https://www.genclassifieds.com/x-509380-z>

Hello how are you

I provide the best tile setting because I specialize in tile, Unlike others, who mix jobs, working with all flooring, carpets, wood, vinyl, etc..., and they may just do a tile job a month, I do it every day. I am a 49 year old professional tile setter that specializes and only sets tile products.

I do have a lifetime of buiding experience, as an example: I was once called the punch list kid, in days of old, I could build your whole house, but for the last 15 years, I have just been specializing in tile instalations. I do everything that goes along with tile installations. I make waterproof shower pans, float walls plum and level, and float floors to level. Strengthen walls and rotten floors. Cut door bottoms and base trims when the project calls for it. Remove and reset trims and appliances when the project calls for it. I build the countertops when a project calls for tiled coutertops. I specialize in the trade of tile. By just doing tile, not mixing in carpet or deck building, this gives me economic and time efficiencies more than others that simply do not get the full hands on experience day to day. I am a professional with laying custom designs: tile wave patternns or custom mosaic patterns, marble, granites, travertines, etc... I am a wealth of knowledge with designs. You can roll a marble down my grout lines.

This is my fourth year back home in Indiana. Previously, I have set tile while living in Aspen Colorado, Vail Colorado, Sedona Arizona, and most recently 4 years in Jackson Wyoming where perfection is demanded. Anything less than perfect gets torn out and redone. It is easy to be perfect when you care

about the quality and put in the extra time to do the job right. Tile is my art. I make custom tiles and designs. Each tile is made out of raw clay with specific glazes. When such an obsession truly arises from the heart, it's not just a job, it's a passion. I work from my garage-turned-playroom.

the food economy this year, my prices are the lowest of all years, and less than half of what I've charged and it is for me personally to set the tile, not some employee. Precision is guaranteed. I am the part time master, trained from the masters, handed down generation to generation.

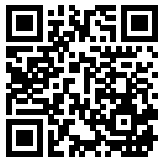

Please call Mark at (desk) (cell) I'm scheduling in the next hour to six weeks. I have a wealth of information for you, especially information about shower designs, and backsplash designs. Like a book, I can answer all your questions, clarify and educate you about all tile and construction issues. I look forward to speaking with you. Thorough precision tile installation is my art. I can only help 25-50 people a
