Hello how are you

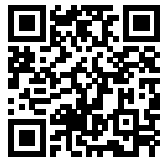

I provide the best tile setting because I specialize in tile, Unlike others, who mix jobs, working with all flooring, carpets, wood, vinyl, etc..., and may just do a tile job a month, I do it every day. I am a 49 year old professional tile setter that specializes and only sets tile products.

I am a master tradesman. I do everything that goes along with tile installations. I make waterproof shower pans, float walls and float floors to level. Strengthen walls and rotten floors. I cut door bottoms and base trims when the project calls for it. I remove and reset trims and appliances when the project calls for it. I build the countertops when a project calls for tiled countertops. I specialize in the trade of tile. by just doing tile, and not mixing in carpet or garage or deck building, this gives me economic and time efficiencies more than others that simply do not get the full hands on experience day to day. I am a professional with laying custom: for exaple tile wave patterns or custom mosaic patterns, marble, granites, travertines, etc... I am a wealth of knowledge with designs. You can roll a marble down my grout lines. You need not install quarterround trims to hide my cuts, my cuts perfectly scribe the wall base trim.

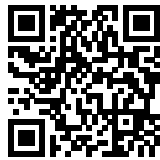

This is my fourth year back home in Indiana. Previously, I have set tile in Chicago, Aspen Colorado, Vail Colorado, Sedona Arizona, and most recently 4 years in Jackson Wyoming where perfection is demanded. Anything less than perfect gets torn out and redone. It is easy to be perfect when you care about the quality and put in the extra time to do the job right. Tile is my art, I make custom tiles in my pottery shop and custom mosaic tile designs out of raw clay, and specific glazes, when such an opportunity arises.

And for the economy, it's not any prices at the lowest of anyone. My prices don't start at the same level, and it is not for me personally to sell the tie, not for me employee. My prices rise to \$500 a shirt, but if it is a good shirt too, as with shirts, I still don't have, prices go up, roll out, and I don't have equipment, as such a shirt. Precision is guaranteed. In the old time, it was trained from the masters, handed down generation to generation.

Please call Mark at (770) 442-1111 (ext. 1) or email me at [mark@tilepros.com](mailto:mark@tilepros.com). I'm scheduling in the next four to six weeks to have a wealth of information for you, especially information about shower designs, and backsplash designs. Like any good book, I can answer all your questions, clarify and educate you about all tile and construction issues. I look forward to speaking with you. Thorough precision tile installation is my art.
