My wife is in desperate need of a kidney, O positive blood group. We have two children. She is 57 years old and has failing kidneys due to Polycystic Kidney Disease (PKD). Her kidneys have rapidly deteriorated. We are looking for a donor who can help. The necessary medical procedures will be performed at the well known Mayo Clinic in Rochester, Minnesota. All necessary expenses relating to medical tests and procedures including travel will be reimbursed.

A potential donor has to be between the ages of 18 to 65, and must not have any of the following medical conditions.

- â€¢ High blood pressure treated with medication
- â€¢ Diabetes.
- â€¢ Systemic lupus erythematosus
- â€¢ Polycystic kidney disease
- â€¢ Substance abuse
- â€¢ Psychiatric illness.
- â€¢ Heart / heart valve disease or peripheral vascular disease
- â€¢ Lung disease with impaired oxygenation or ventilation.
- â€¢ Recent cancer or a history of cancer
- â€¢ Low kidney function
- â€¢ History of blood clots
- â€¢ Active hepatitis B or C infection or HIV infection.

If you think you are a candidate or if you know of some one who is a candidate, please contact me. You may remain anonymous if you prefer. This will mean a lot to our family especially our children
