Looking to hire an owner/operator for 6/27. We're looking to capture some arial images and video during an event. The footage would need to be downloaded immediately. We would take care of the editing. Services would be needed for 3 hours but the total flight time will be around 30-40 minutes. DJI Phantom 2 with GoPro Hero 4, Phantom 3 or Inspire 1 would be nice but we are not limited to those choices. Please submit reel and gear.
