Looking for someone to deep clean and shift the common areas of a 4-family house. This is starting tomorrow. (There will also be an apartment vacating end of June which will also need full cleaning and painting). I am not looking for a service company -- my husband will be doing this work and needs someone with some experience, skill in this area to work along side him.

This is starting tomorrow and may take 2-3 days. Let me know if you are available then.

Also, let me know your hourly rate when you.
