Because of all the spam, if there is no number in your reply, you will not get a response if your reply looks in least bit "fishy" - I understand folks are reluctant to give out phone numbers, but I'm not interested in replying to a bunch of spam, either. In cleaning out the office storage room, we found:

3 new unopened CDRW drives (2 Cendyne brand and 1 Pacific Digital),
1 new unopened internal hard drive.
(when I say "unopened," I mean just that - the above are still shrink-wrapped.)
8 used "CD" drives (they may be DVD, but I'm not sure, so I'm saying "CD")

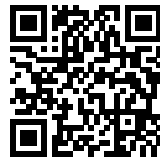

I'll take 100.00 for it all and right now, I really don't want to piece it out. I'd consider trading, but no computer parts - what do you?
