

I am a small in-home daycare with a background in early child hood development and education. I have a degree in early childhood education, and have worked in both small and large child care centers. I have also been a personal nanny for a period of time. I live in a nice, quiet neighborhood that is just a couple of minutes from the turnpike and walking distance to the schools. We have lots of toys and a spacious backyard with a swing set, sand box, and climbing structures. I follow a curriculum with a new theme every week, and run a structured, fun learning day. We also have a music teacher once a week with songs and movement learning. I'm open most holidays, and am very flexible and accommodating to you. If you are interested, give me a call, or email so we can set up an appointment!
