I own a property that I rent weekly throughout the summer. The property is rented M-F and my family uses the house on weekends. So cleanings will most likely be on Sunday afternoons after renters have checked out.

I need someone to clean the house for me after each rental. The house has the following: Kitchen, 1 Bathroom, Living room, dining room, small sun Room, 2 bedrooms (1 on first floor and one on 2nd floor), and another spare room on the 2nd floor.

Please provide me with some general information about your service and estimated price for a complete clean: Thorough cleaning of kitchen and bath, sweep and mop floors, and wipe down tables etc.
