Selling my 26in Eastern Traildigger in crome/green components. Currently set up as a "urban assault" machine. Currently running suntour xcr front fork with 65mm travel, has a matching eastern cro-mo rigid fork that comes with it aswell. Bike is in awesome shape never beat up, jumped, or even ridden like it should.

awesome geometry for urban riding as well as down hill dirt, no toe rub on the front tire (common issue with tight bmx geometry 26ers)

- parts rundown:
- 2011 Eastern Traildigger frame 21.75" tt CRO-MO
 - Suntour XCR Down Hill fork 65mm travel adjustable bound and CRO-MO legs and steerer tube.
 - Eastern 26in rigid full CRO-MO forks
 - Eastern raptor crank set 175mm
 - Eastern LB-9 bi-rectional (left hand or right hand drive switchable) rear hub 12t
 - Eastern classic front hub 36h
 - Weinmann 36h double wall rims
 - Kenda K-RAD 2.30s front and back
 - Black-ops 25t 4130 sprocket, will include a Eastern 25t medusa sprocket aswell
 - Hoffman forged top load super stem 55mm reach
 - Odyssey PC pedals

Eastern big up 4.25in bars CRO-MO
grips and 1/2 inch bar ends
Hoffman forged top load super stem 55mm reach

I love this big wheeled machine but id like to use the money from selling it on a mini or pro 16in for my boy
id like to get 360 out of the entire package with both forks
would consider trades for the right tools, firearms, canon, dslr lenses etc.
