I'm looking for someone with a large Facebook following to advertise our SAT/ACT tutoring company.

If you have lots of facebook friends who live in New Orleans, and you don't mind posting my business's facebook account to your wall, this job is for you- it costs you nothing, and you can make up to \$400.

Here's how it works: This gig will last one week. I will pay you \$10 to post my company's Facebook page to your wall for the week. I will pay you 40 cents for every "like" my page gets. You will be paid at the end of the 7 days from the time you post- up to and not exceeding \$400, which includes the \$10 to post to your wall.

I will need to see a screenshot of the post before I pay you, to prove that you kept it up the whole week. Once the week is up, you may delete it from your wall.

I will need to see a screenshot of your facebook page first to make sure are a good representative of my company.

Please respond if interested.
