When God created mankind, He created them in His image and likeness. They were also built with power and authority. In Genesis Chapter two, we see how mankind was designed to be a people completely surrendered to God. They were cultivators of lands, nations, protectors and a people who were able to hear the voice of God. However, due to sin's infiltration in the garden; even now, mankind has lost contact with their true identity and are going about without a clue of who they are and what their purpose is on this earth. In "I AM: Discovering Your Identity In Christ" you will discover your true identity in Christ, and will learn to walk in your God-given purpose without fear, or doubt. It is God's will for you to know who you are, because when this occurs you will be a blessing worldwide and no one will be able to stop you.
