great car with 104k woman driven miles, but has the fuel pump/to gas tank rust problem. Needs a gas tank replacement unless you know someone that welds plastic. I can not find a tank. I don't want to get rid of this car, body is great, v8 engine and tranny great, car is great, blaupunkt stereo, heated seats, all leather, loaded, its a cadillac. Tires are brand new (\$800), have spent alot on this car over the years and recently to keep it perfect, have all maintenance records, I dont want to junk this car if someone can use it or fix it, too many great parts to junk it. Come see it, call me. steve,
