I am adding a video blog to my website and am seeking the help of talented videographer for an ONGOING gig.

I am looking for the video quality to be similar to:
http://www.youtube.com/watch?v=AYm_LpKE418

What I am seeking:

- Videographer to record four or five 3-minute videos at a time
- Someone available twice a month for 3-4 hours at a time (during the daylight). Weekends are a possibility.
- Videos will be shot in different locations during the day (but at most it will ONLY be two locations in one day)
- This gig could only be for recording (with you handing over the footage after each session) OR if you are VERY talented, editing might be added as responsibility.
- Sorry but you will not be allowed to add your signage/logo to the final videos

Qualifications

- Highly professional (on-time, reliable, etc.)
- Must be have a pleasant disposition, be adaptable and be a true team player. If you are a person who gets frazzled easily this is not for you.

Prefer someone with own equipment below, BUT we can work with my equipment if necessary:

1. Camera (HD)

2. Microphone (lapel)

Lighting

Tripod

Please

send

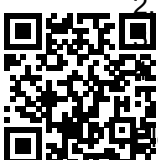

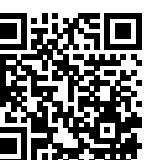

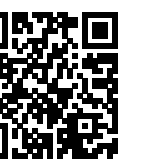

1. Links to videos you have done. Must have voice sound (not voiceover)

2. Rate

3. Availability

4. Camera/Lens you shoot with

This is a paid ongoing gig (please do not respond if you are looking for a one-time thing). However, I will not commit to longer periods until we have worked together once, to make sure it is a good fit. (of course, you will be paid for the initial gig).
