Nice solid Lane vintage bedroom furniture in great shape, refurbished with a dark stain with white paint and new hardware. I will sell separate at \$250 each.

The hutch is 58" tall, 38" wide, & 18.5" deep

The dresser is 30.5" tall, 72" wide, & 18.5" deep

The pictures are not the best because the furniture is in storage and getting a good angle is difficult without pulling them out.

The hutch has the two bottom drawers and behind the doors there is one more, also there is a shelf that can be adjusted that goes inside where the doors open, which I have and it is on top of the hutch.

The dresser has three drawers on each side of the doors and three more behind them.

I also am selling the Buddhas on the dresser. Four of them are from Saigon and Taiwan in 1962, reply back if you are interested.

I will only do business in person, cash in hand.
