i evaluate your coins for free and can do it over the phone on most coins. i do american coins as most foreign coins are not collectable for their worth here in the US. what i do is give you the info on what to look for, then we determine the value, it's painless! been coin collecting for over 50 years.

call me at call anytime between 9:00 AM and 10:00 at nite if i am here i will certainly evaluate your coins for you. and if you want me to purchase them you will have to ask me because that is not what this service is for. this is an evaluating service so you can know real world value of your US coins! not some book value, or online reference. i will tell you book value, what you can expect from a dealer, and what to expect from the public buyers.

call please keep calling my phone takes messages but does not give them to me!?!
 it also won't let me know any phone numbers either, so just call i will answer.
