We are a band called Freak the Mighty from Norman Oklahoma. We've been putting together a rock project over the past year and have just wrapped up our first EP @ 33rd Street Studio in Edmond and have been sponsored by multiple companies to do so. Our studio bass player will no longer be able to play with us for family reasons and we are looking for someone between the ages of 21 and 30 to take his place. We plan on gigging multiple times a week when we teach our new bassist all of the tracks. We will play bars, venues, and festivals as often as possible and are seeking label exposure.

We are also searching for a second guitarist to join us as well. We would like to find musicians who are into modern rock and have a good ear for sound. If anyone is interested please give this studio video (<http://youtu.be/rCNo1MQLg18>) a look to hear a bit of our music and shoot us an email with your information and a picture of yourself and we will send back demos of our EP to see if you like it.
