

Yale PhD (,,,,, USD)

Location **Pennsylvania**
<https://www.genclassifieds.com/x-511040-z>

Hi,

I tutor up through graduate level math, stats & computer science. I also can teach Java, Python, R, C/C++, VBA, assembler, and others.

Having worked on wall street, I also tutor finance and actuarial science as well -- including Excel!

Credentials:

I hold a Yale PhD in biostats, a masters in stats from columbia and I triple majored in math, comp sci and finance in college. Typically, I prefer more advanced students as the material is more interesting but motivated high school students are welcome.

Guarantee:

If after the first hour you feel I haven't helped, you don't need to pay me :-).

Let me know if you're!
