Just Bought New Tao Tao Scooter (Fox Point)

Location Wisconsin https://www.genclassifieds.com/x-511148-z

I have bought one of these before and tried to assemble it myself well let's just say it didn't turn out well. Looking for someone who know how to do the limited assembly that is required. The Scooter has been shipped and will be here in 2-4 days. It should not take too long to do but I would like someone experienced so it doesn't fall apart on me!

Anyone?
