About Lifebloom Creative:

My name is Karllye Walker and I am Lifebloom Creative (<http://www.lifebloomcreative.com>). I have over 10 years agency/professional experience with Website Design and Development. I specialize in developing and designing beautiful, responsive, and functional websites with WordPress and SEO in mind. These websites can ultimately be updated and maintained by the owner fairly easily. I have developed over 40 .com's in the past year, many of which are larger WordPress WooCommerce installations with hundreds to thousands of products.

I never outsource any of my work and you will only be working with myself directly. You will never have to deal with offshore people or used car salesman, I am the whole.
