Location **South Carolina**

Recently bought this Alpina automatic dive chronograph, but it turned out to be larger than I was hoping for. This watch is brand-new, still wrapped in factory plastic, with boxes and papers. Full retail on this piece is \$3250, and you can find it right now at Amazon on mesh bracelet for \$2945, Jomashop has it for \$2095, and Overstock.com was selling it for \$1999 until they sold out (look it up!). I'm asking \$1300 OBO, so someone is going to get a super deal off my mistake. Seriously, if anyone finds this watch brand-new for less than I'm asking, please let me know about it.

Cash only, in person (or certified check, if you meet me at a bank and cash it yourself). Scammers, don't bother making any offers, you will be.
