Solid wood entertainment center. the center is 4 pieces. Center is 2 pieces and 2 side pieces. Side pieces have 2 glass and wood shelves that are adjustable and also have interior lighting. Very solid piece. The entertainment center has gone through moves before and it is still solid. it does have a couple of minor scuffs and blemishes that I am currently working on repairing. the 2 side pieces also have legs but picture shows them with the legs off.

I have a matching curio cabinet also listed for \$180
