I'm trying to sell my 52 Awesome Samsung TV. This has a awesome awesome clear picture and has built in surround on the sides. I have a Timewarner Remote to go with it. The stand is not the original and kinda wobbly but will work but id put it on the wall or secure it in the back. I can help with this if someone is interested and needs help. There is a issue with it but only the first 5 mins of warming up the screen will have ghost figure on the right hand side and the cause is one of the Buff boards but should last a lot longer, i would of replaced it but it has not bothered me and i just let it warm up, it has not had any other problems other then that and should last a lot longer, when and if it does ever go out the repair will be fairly easy and cheap!! This TV when new 5 years ago run around \$2700 because it was the best of the best at the time!! The picture is so good that when your watching you sometimes think that you are in the tv or that the people will come out of it lol. Has 4 HDMI Ports along with all the other ports!! Only selling because of a Bill that is due and the Bill is \$290 so that's all I will take and that's a good price for this type of TV and you won't find it cheaper!!! Pawn Shops want \$500 plus for tv like this. The model number is LN-T5271F 803 608 0775. Andy!! I live off of Fairfield and I cannot deliver it as it's too big to fit in my car so you will need a SUV or a!
