75 off PEAK season fly fishing trip

Just returned from four days of fishing on the Grey Reef section of the North Platte river near Casper, Wyoming. The trip was put together by the guys at Wyoming Anglers. I was asked by three of my golf buddies if I would arrange a fly fishing trip and decided to contact Wyoming Anglers. I actually found them

on the Internet as I was searching Wyoming fly fishing guides. I was a little concerned since I had not used their services before but I booked an "all inclusive" trip which included 4 individual rooms at the house they use near the river and three meals a day. (breakfast and dinner at the house and shore lunch on the river). The food was plentiful and tasty. Two of the guys that went on the trip had virtually no fly fishing experience and the third guy not only had very limited fly fishing experience but took his 15 year old grandson who had no experience. All of us caught many trout some up to 20 inches. We fished from the traditional "McKinsey" drift boats and caught fish dead drifting nymphs. The guides were great and had an immense amount of patience with my rookie buddies. My last morning with my guide was one of the most memorable of my fishing days since it was spent virtually hunting rising fish and casting small dry flies to the rising fish. Although I was rewarded with less than ten fish for the morning each fish landed on a dry fly was worth 10 fish that I caught on a nymph. I would highly recommend Wyoming Anglers and the Grey Reef section of the North Platte River for your next fishing outing Dave.
