I'M LOOKING FOR A HARD CORE ELECTRIC BASS PLAYER

WE ARE FORMING A NEW KIND OF BAND
A **HARDCORE GRUNGE / METAL BAND** a.k.a. "GRETAL"

I'm looking for a Metal / Hard Rock Electric Bass player to help turn my "band" (just me at the moment) into an actual band. I've gotten the "band" (SEA) all the way up to the #4 position on the ReverbNation Metal chart for Seattle all on my own. Now I'm looking to put together a real band so we can do live gigs around the Seattle area. As of now I don't have a practice studio, and all of my songs have digital drums underneath them. That would eventually have to change of course. For now, I'm wanting to find a bass player first, as that is the easiest next role to fill. Listen to the songs and if you think you are interested, let me know ASAP. I'm looking to give Queensryche (#1) & Michael Wilton of Queensryche (#2) a serious run for their money...
