Do your songs or Podcasts need a Professional MIX or MASTER?
 I can help make that happen!

I have over 2 decades experience mixing, mastering and producing bands and working in audio engineering and am now looking for your professional audio work in the RI area. (I would gladly record a band but the studio/recording space would have to be provided. I have everything else.)

I also write, perform, produce and or mix/master film scores as well! Email me for details on that as well. Do you want professional sounding songs on your albums? Professional high quality Podcast episodes to set you apart from all the rest?

Songs that fully present your music and talent at it's best? Audio quality that far exceeds whats out there? I can do that for you!

All you need to do is provide the pre-recorded tracks and I'll work the magic to make them sound the way they were supposed to when your brilliant minds created them!

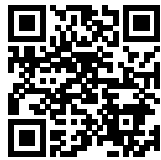

I can also take your old tracks and re-mix/remaster them to sound NEW & PRO!! I'll even re-mix or remaster your old cassette demo tapes/4 tracks!

Email me to for my rates and more info. Let's talk. Thanks for!
