Hello, due to our house selling too fast and the new house falling through, unfortunately we had to move in with family until we find a new place. They have cats here so unfortunately our dogs aren't welcome inside. We can't find a place right now to rent either that allows dogs over 30 lbs. I'm hoping maybe I can find someone with fenced in land that would be willing to take our dogs for a month or two until we get back into our own place. I really hate to even consider this but I feel it would be better then taking them to the animal shelter where we would never get them back. We have two large dogs named Lily and Rock. One is a lab/ Newfoundland mix (girl) and the other a lab/ mastiff mix (boy). Both are fixed. They are both really sweet dogs and love to run which is why I was hoping to find someone with some acreage. I know this is odd but I really don't want to get rid of them because of our unfortunate circumstances and the current living situation isn't fair for them. Please let me know if you can help.!!
