Contractor needs experienced wood-working type person to build 5 or 6 store counters. Need someone who does first class work and can furnish verifiable references. These counters vary in size from 4 ft. to about 10 ft. and will need to be finished by July 1. They do not have to be painted or have any finish. We have samples to match from existing store. They can be built at your shop or in a work room of new store. Please do not apply if you are not qualified to do this.
